H+N oncology is an extremely challenging and exciting area of dietetics. This workshop aims to inspire and educate dietitians who are working in the area, along with those who have an interest in Head and Neck Oncology. Areas to be covered in the workshop include:

- Improving Outcomes in Head & Neck Cancer Patients – United Kingdom
 - National Guidance for Organisation and Delivery of Cancer Services
 - Nutrition and Dietetics Services – University College London Hospital NHS Foundation Trust
- Nutrition in Head & Neck Cancer
 - The Impact of Malnutrition and Effects of Treatment
 - Patient Pathway and Clinical Model of Care for Dietetic Management
- Gastrostomies in Head & Neck Cancer
 - Dietetic Led Service
 - Patients and Carers Experience of having a Gastrostomy – Pilot Study
 - High Risk Selection Criteria for Tube Placement and Preventative Measures for Tube Reliance (Facilitated Workshop)
- Head & Neck Dietetics in Australia – what is happening
 - Dietitians will provide snapshots of projects that they are involved in/ recently completed
